How's the light working?

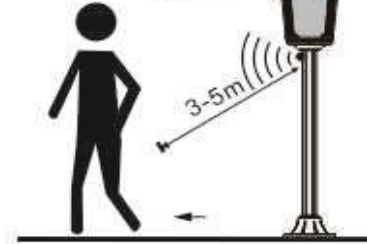

Step1: Light switch off for sun charging in daytime

Step2: Auto turn on at night (<10lux), the first 5 hours 100 lumens, and then 25 lumens till dawn.

Step4: When people left, the light will turn on Dim light again.

Step3: With PIR motion sensor function the whole night, when people approach, the light will turn on 200 lumens bright light and delay 30S.
