Harness the power of the sun with the portable solar systems from USA EMERGENCY SOLAR ENERGY PLUS LLC. Use the solar battery to charge your portable power bank or directly charge your favorite electronic devices. The integrated power storage and conversion system makes this an incredibly versatile product you can use at home, camping, or during emergencies. We offer nationwide shipping from our business in Denver, Colorado.

Harness the Power of the Sun

Our portable solar system comes in 50-watt and 350-watts varieties. Although we designed this product to charge devices throughout the United States, a 60 HDV option is available for out-of-country powering.

This device is powered by the sun, contains its own battery for storage, and includes all needed cables. The solar panel comes with its own inverter so it can power your devices directly, or it can be used to charge. The solar panels themselves fold up for easy transport.

BX-007 is a All-In-One Portable & Rechargeable Solar Power Generator. It combines leading-edge technology in mono-crystalline photovoltaic and electronics into one portable device to provide you with the best that technology has to offer for your portable charging needs.

sales@usasmarttech.com Office Phone: +1-303-634-2208

Answer..... This depends on the fridge and TV power consumption, like a 32" TV, it is about 60W, you can use the generator to power for about 8 hours.

4.

Product Specifications

Maximum Power: 10W(x5)

Battery: Lithium Polymer 12V
48Ah

Light: 3W LED

Light Modes: Flashlight, SOS

Weight: 10.7kg

Size: 44.2×34.5×14.5"

Package Size: 47.3×36.5×16.5

DC12~23V Input: 100W Max

AC 220V Input: 350W Max

**AC 100V~240V
Output:** 100W Max

**12V DC Plug
Outputs:** 96W Max

**12V DC Cigarette
Socket:** 96W Max

5V DC USB Output: 10W Max

350W Water Proof Portable Solar System

The 350W Water Proof Portable Solar System combines highly efficient Renogy solar panels, a solar charger, a power inverter, and a lithium polymer battery within a robust, waterproof case to create an easy to use, plug-and-play backup power system.

This system is specifically designed for mobile off-grid applications, where space and weight limitations are abundant. The Renogy Firefly 350W Water Proof Portable Solar System is perfect for emergencies, providing up to 175 Watt-hours of energy. The built-in solar charge controller allows the expansion of an additional 18v solar panel for a max of 70W.
